Document Solutions

ECOSYS P2040dw/M2640idw Series

A SMART INVESTMENT WITH A HIGH PRODUCTIVITY PAY-OFF

Looking for a printer or multifunction device with advanced features and speed to boost the productivity of your workgroups? Kyocera has the solution to help manage your imaging and document workflow more efficiently and cost-effectively.

The ECOSYS P2040dw and ECOSYS M2640idw monochrome series from Kyocera delivers exceptional print quality, reliability, and on-the-go printing and scanning so you can drive your

business from anywhere. Featuring both printers and multifunctional devices, this series allows you to perform the print, copy, color scan and fax functions that meet your office needs.

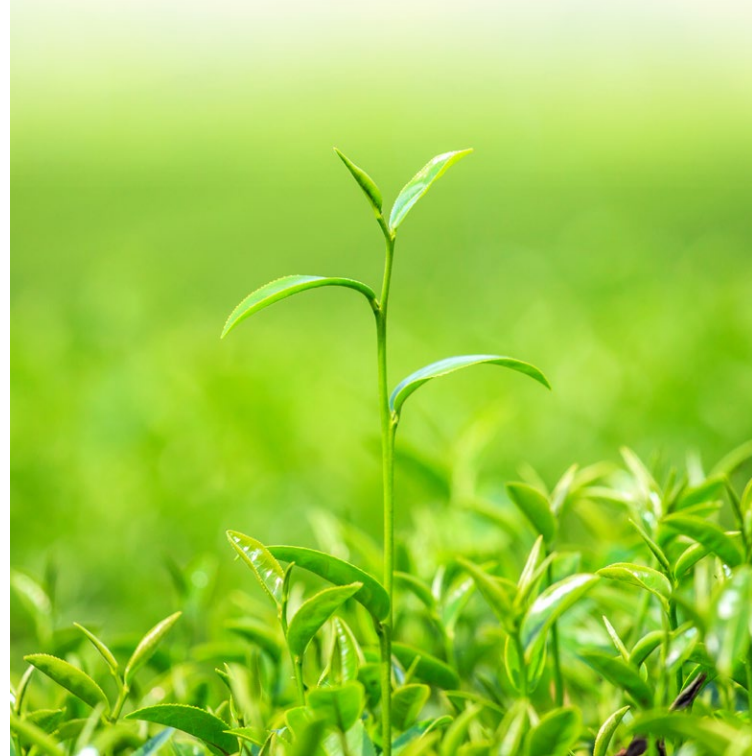

Whether you are printing multipage reports or standard business documents, the result is consistent and professional output up to 40 pages per minute and up to Fine 1200 dpi. All with the low total cost of ownership of ECOSYS long-life consumables.

ECONOMICAL AND ECO-FRIENDLY

Kyocera recognizes the burden that business activities can place on the environment. We strive to pursue a harmonious balance between economic development and environmental preservation with these measures:

- Energy Saver functions, such as automatic sleep mode when not in use. If the machine is not used while in sleep mode, the power turns off.
- Standard duplex printing, which utilizes both sides of the paper, reducing wasted paper and paper costs.
- Energy Star® compliant, low Typical Electricity Consumption (TEC).

GET THE ECOSYS ADVANTAGE

Kyocera's ECOSYS long-life technology creates a lower total cost of ownership for your business and less waste for the environment. Our patented long-life drum is separate from the cartridge and does not need to be discarded when toner is depleted.

This "toner only" concept means the toner container includes minimal components and materials, thereby creating less waste and less replacement cost. All without compromising the productivity and features you need.

MONOCHROME MULTIFUNCTIONALITY AT ITS BEST

The ECOSYS M2640idw monochrome multifunctional device stands apart in this series, with HyPAS capability and a 4.3" color touch screen control panel display (TSI). The robust HyPAS software platform allows you to seamlessly and securely integrate business applications into your workflow to empower your workforce to do more with their documents and manage information more efficiently.

A SERIES OF IMPRESSIVE FEATURES FOR OPTIMAL WORKFLOW

Print at speeds up to 40 pages per minute.

Produce crisp black-and-white documents up to Fine 1200 dpi.

Flexible media options to meet your demanding business needs - including statement to legal size, envelopes, labels and more.

Print-from and Scan-to a USB thumb drive. Scan to SMB, email, FTP, WSD-SCAN and TWAIN/WIA compatible.

Scan documents at up to 40 images per minute with the 50 Sheet Dual Scan Document Processor.*

Detect and remove blank pages when scanning or copying with Blank Page Skip.

Increase security with optional user card authentication.

Tablet-like 4.3" color touch screen (TSI), plus a hard key control panel.*

Standard wireless and Wi-Fi direct.*

Increase the paper capacity up to 850 sheets.

Super G3 fax capability.*

Simplify IT management. Remotely access device statuses, configure security and networking settings from anywhere on the network using KYOCERA Command Center RX.

*Specifications vary by model

MOBILE PRODUCTIVITY WITH PRINTING ON-THE-GO

With Kyocera's mobile solutions, virtual offices are a reality. Increase your productivity on the go without the need to install any printer drivers. Transform your print and scan workflow into a mobile experience with the following options:

Apple AirPrint®

Print to your ECOSYS printer from any iOS or OS X device on the same network.*

Google Cloud Print™

Access and print documents from anywhere using your mobile device.

KYOCERA Mobile Print

Scan-to and print-from your smart device with this Kyocera business application.

Mopria®

Print to your ECOSYS printer from an Android (4.4 or later) device.

*Specifications vary by model

PREVENT UNAUTHORIZED ACCESS

Kyocera Card Authentication provides tight control on what is being printed. With a simple swipe of a HID proximity card, users gain immediate access to only their authorized job function and features on the ECOSYS MFP and printer. It's a cost-effective, value-added feature for any business.

- **User Authentication** using registered logins and passwords or HID proximity cards.
- Local and network authentication (MFP models only).
- Restrict features like copy, scan and fax.
- **Private Print** feature with password protection and user authentication.
- Security watermark option via KX driver.
- **PDF Encryption** restricts access for displaying, printing and editing PDFs by assigning a secure password.

REMOTE MONITORING REDEFINED

Optimize device uptime and reduce costs with KYOCERA Fleet Services (KFS), a highly-secure cloud-based monitoring solution that offers real-time visibility into...

Device Status

Take a proactive approach to error resolution to ensure that your fleet operates at peak performance. Maximize up time with scheduled off-hour maintenance.

Counter Activity

Eliminate administrative burden with automatic meter reading, for accurate and timely billing.

Supply Levels

View consumable levels to prevent unnecessary workflow interruptions.

Usage Trends

Identify print, copy and scan trends to make more informed decisions that will further optimize your workflow.
